

Meeting All Your Electrical Needs

Winstanley Electrical & Mechanical Services

Welcome to our World

Winstanley Electrical have almost 40 years experience in the electrical industry in all aspects of commercial / industrial installations. We are a highly skilled electrical company providing a friendly and reliable service where all aspects of our work are completed to an extremely high standard

We carry out all types of electrical services such as repairs, maintenance, installations, testing & inspections and offer highly competitive prices with free quotations.

We are fully qualified electricians, up-to-date with all current regulations, 17th Edition City and Guilds qualified and CSCS Approved.

All installation work is carried out to **BS7671 IEE** Wiring Regulations and issued with relevant certification.

As members of the National Inspection Council for Electricians Installations Contractors (**NIC EIC**) all of our work is carried out to the standard of this Institution of Electrical Engineers (**IEE 17th Edition**) all customers can be assured of quality workmanship and reasonable rate.

As approved contractors for the **NIC EIC** we provide Insurance Services a warranty backed insurance with all domestic installations. This insurance lasts for 6 years and covers up to the value of £25000.

Avetta connects the world's leading organisations with qualified suppliers, contractors, and vendors. They bring unmatched visibility to companies through cloud-based technology and human insight.

To receive a free quote for our services, which include rewires, burglar alarms and testing & inspections in the North West, simply call us on:-

Testimonials

We have used Winstanley Electrical Ltd for many years for various different electrical and heating repairs throughout our dealerships in the North West.

I have always found their service to be extremely fast, reliable and of a consistent high standard. They are a very trustworthy company with staff who are friendly and professional. In fact, as I am so happy with the service I have received from them in my workplace, they were the first and only people I contacted when I needed electrical repairs carrying out in my home. I will continue to use them for many years to come.

Coleen Gates | Dealership Secretary
TrustFord

Momentive have been working with Winstanley Electrical since early 2015 and have always found them to be a reliable and professional organisation. We have utilised a variety of services covering installation, maintenance/testing as well as their "call out" for emergencies and on all occasions we have been completely satisfied with the work undertaken.

Winstanley provide a variety of staff specialising in different areas and over the last 6-12 months our relationship has developed to enable us to work with the most appropriate member of their team to satisfy our needs.
